📍 Saudi Arabia

PROFESSIONAL PROFILE

IT professional with hands-on experience supporting network infrastructure, systems administration, and technical operations across multiple environments. Currently building specialized expertise in cybersecurity through formal education (Diploma in Information Security) and continuous self-driven practice in penetration testing and network security fundamentals. Comfortable working in fast-paced technical environments, with a strong foundation in troubleshooting, system hardening, and data protection, and an active pursuit of professional certification (eJPT) to transition into a dedicated cybersecurity role.

PROFESSIONAL EXPERIENCE

Rehlat Al Wadi Transport Est. | Saudi Arabia

IT Support Technician | December 2024 - Present

Key Achievements

- Kept work devices and barcode printers running reliably, minimizing equipment downtime across operations.
- Maintained efficient, stable connectivity between branch networks, supporting uninterrupted shipment-tracking operations.
- Provided fast, effective field technical support to branch staff, resolving device and software issues on-site.
- Strengthened data protection by securing shipment and customer records and running periodic backup cycles.

Core Responsibilities

- Infrastructure Support: Prepare and maintain work devices, including barcode printers.
- Systems Administration & Operations: Ensure efficient connectivity of networks linking branches and shipment-tracking systems.
- Field Technical Support: Maintain branch-specific devices and resolve employees' technical issues.
- Data Security: Protect shipment and customer data, and perform periodic backups as a security precaution.

Rehlat Al Wadi Transport Est. | Saudi Arabia

Cashier Accountant | July 2024 - November 2024

Key Achievements

- Improved data accuracy by recording customer and shipment information precisely.
- Reduced discrepancies through accurate auditing of quantities and shipment records.
- Enhanced inventory tracking by monitoring received, returned, and exported materials.
- Improved operational efficiency by accurately calculating shipment quantities.

Core Responsibilities

- Recorded customer data and shipment details accurately in the system.
- Calculated quantities and verified shipment data for operational accuracy.
- Audited shipment records, ensuring accuracy of quantities and documentation.
- Calculated losses from returned materials and monitored received and exported quantities.

Ahla Hadaia Trading Company | Saudi Arabia

Cashier Accountant | December 2021 - July 2024

Key Achievements

- Processed high volume transactions accurately, ensuring smooth daily financial operations.
- Reduced discrepancies through precise cash reconciliation and daily closing reports.
- Improved transaction efficiency using POS systems and accounting software tools.
- Maintained financial data integrity, ensuring confidentiality and audit readiness.

Core Responsibilities

- Managed daily cash and electronic transactions with high accuracy levels.
- Performed cash reconciliation and prepared daily financial closing reports.
- Operated POS systems and utilized accounting software for transactions.

- Maintained accurate financial records, ensuring confidentiality and data protection.

Asr Alhatif | Saudi Arabia

IT & Sales Trainee | March 2023 - June 2023

Key Achievements

- Developed technical skills through hands-on maintenance and device programming tasks.
- Enhanced customer service abilities through direct interaction and sales support.
- Improved technical knowledge of computer systems and mobile device components.
- Supported sales operations by assisting customers and explaining product features.

Core Responsibilities

- Assisted in maintenance and programming of computers and mobile devices.
- Supported sales team by interacting with customers and handling inquiries.
- Explained product features and provided basic technical guidance to customers.
- Learned device components and improved overall technical troubleshooting knowledge.

ACADEMIC BACKGROUND

Prince Sattam bin Abdulaziz University | Saudi Arabia

Diploma in Information Security | Applied College | 2022 - 2024

Prince Musaid bin Abdulrahman University | Saudi Arabia

formerly: Saudi Electronic University

Bachelor of Information Technology | Expected Graduation: 2029

PROFESSIONAL CERTIFICATIONS

- eLearnSecurity Junior Penetration Tester (eJPTv2) | INE (In Progress - Expected October 2026)

COURSES & TRAININGS

- **AI for Cybersecurity** | Capsule Tahawul Initiative | August 2026
- ISO 27001:2022 Lead Auditor (ISMS) | MasterMind Training Academy | June 2025 - Expiration 2028
- eJPT Preparation Course | KFU | 16 Hours | November 2025
- CTF Competition | Cybersecurity Club | November 2025
- Introduction to Cybersecurity | Cisco Networking Academy | June 2025
- CySA+ Preparation Course | 8 Hours
- Phishing Analysis & Digital Forensics | 8 Hours
- Cybersecurity Foundations | Edraak
- Cyber Attack & Penetration Techniques | Edraak
- Machine Learning | Dorooob | 2024
- Cloud Computing | Dorooob | 2024
- Career Path in Cyber Security | Edraak | 2024
- Protect Systems from Penetrations | Edraak | 2024
- Cyber Security Attack Techniques | Edraak | 2024
- Cyber Security Basics | Edraak | 2024
- Introduction to Cyber Security | Edraak | 2024
- Information Security | Dorooob | 2023
- Cyber Security | Dorooob | 2023
- Introduction to Information Technology | Dorooob | 2023
- Risk Management | Dorooob | 2023
- Internet of Things Applications | Dorooob | 2023
- Digital Transformation | Dorooob | 2023
- Web Application Development | Dorooob | 2023
- THM (TryHackMe) Preparation Course | 30 Hours

SKILLS

Technical Skills

- Network Troubleshooting & Connectivity
- Device & Hardware Maintenance
- Basic Penetration Testing Fundamentals
- Vulnerability Awareness & Scanning Basics
- Data Protection & Backup Practices

Tools & Technologies

- Nmap
- Metasploit
- TryHackMe (THM Labs)
- Wireshark (Basic)

IT & Infrastructure

- Branch Network Connectivity (LAN/WLAN)
- Barcode Printer & Work Device Support
- Hardware & Software Troubleshooting
- Data Backup & Recovery
- Field Technical Support

Soft Skills

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Communication Skills
- Time Management

LANGUAGES

- Arabic
- English
